**5. Vaccines** – Petworks requires that all pets have the following vaccines:

**Cats:** *FVRCP* (Distemper Vaccine)\* – every 12 months

*Parasite Control* (worm/flea)\*\* – every month (both types)

\* If your pet is getting his/her *Distemper* vaccine for the first time or is overdue, he/she should have received the vaccine a minimum of 7 – 10 days prior to arrival. This ensures adequate protection for your pet.

\*\* *Parasite control* is required to prevent fleas & worms. It is given as a monthly dose (by you, the owner). Please indicate in your enrolment form which of the following is used, including the date routinely administered. *Sentinel, Advantage, Advantage Multi, Revolution, Interceptor, Drontal, Program or some combination thereof; (flea collars are not acceptable.)*

**6. Enrolment** – Please come into the Resort for a tour of our boarding and daycare facility. Upon arrival you can pick up an enrolment form. Please include vaccine certificates from your

veterinarian when submitting the enrolment form. Once enrolled, staff will create a file for you & your pet. When this is set up you can now book your boarding reservation.

**7. How do we prepare for our first day?**

- During your pets stay, you are welcome to bring a *small bed or blanket* that smells like home (preferably something we can machine wash if it gets soiled). The smell of home will help your pet adjust to our surroundings.
- We provide Medi-cal Dental or Hills T/D dry food, although bringing your *own pets food* is preferred (this prevents stomach upset while they are staying with us.) Upon arrival, advise staff of your feeding schedule (food from home can be brought in a container or sealed bag.)
- Please ensure *collars or leashes do not have sharp edges (metal), unsecured tags or have metal studs*; as this can be a danger to pets and pet care attendants.
- Keep pets *nails trimmed*, this can be quite dangerous to the pet and others.
- Advise staff of any *allergies or health concerns* that your pet may have. Feel free to give us a health history print-out from your veterinarian if your pet has major health concerns.
- *Extra's (nails/medication treatments)*: these options require additional costs, and are listed along with the enrolment form. Please inform the attendant of which options you would like and at what dates/times.

**8.** The Resort staff **may use Medi-cal Dental or Hills T/D, diet as treats** to reward your best friend, or you may provide your own treats to be used. *Please let us know of any food allergies your pet may have.*

**9. Patient Arrival Policy** - For your protection and that of others, all cats must be in an appropriate cat carrier, on a leash or towel wrapped, to be properly controlled while waiting for customer service.
